Meet the HTC HD2, exclusive to T-Mobile! The HTC HD2 has the largest multi-touch smartphone screen on the market, yet it has a slimmer form than its rivals. Be the first to sport the cinematic 4.3-inch touch display and push the limits on what you expect from a phone. With a 16 GB microSDHC™ card pre-installed with applications and movies coupled to a powerhouse processor, the HTC HD2 is the perfect extension to your active, busy lifestyle.

MULTITASK ON THE GO

Whether you're talking on the phone and editing a spreadsheet, or listening to music while downloading and responding to important e-mails, the HTC HD2's 1 GHz processing power coupled with Swype keyboard technology ensures a smooth and lightning-fast response.

STAY CLOSE

Slim, polished and refined, the HTC HD2 fits as well in your hand as it does in your lifestyle. Synchronize a massive 85 MB of Microsoft® Outlook® data without missing a beat, and you'll love the crisp sound of your conference calls with a high-quality speakerphone and efficient in-call management. Web sites have never looked better, with an enhanced browsing experience. Experience sharp video, audio and movies on the largest and highest resolution screen on a mobile phone. Whether you're traveling from New York to LA or traveling to cities in between, Wi-Fi from Gogo Inflight Internet on your HTC HD2 helps you escape the noisy airplane cabin and pass time reading up on the latest business journals with the preloaded eReader application by Barnes & Noble, or responding to e-mail. No matter where you travel, the HTC HD2 provides the perfect blend of power and design!

STAY CONNECTED IN FLIGHT WITH FREE WI-FI!*

Ever wish you could go online during those long, cross-country business flights? With an HTC HD2, you can receive free inflight Internet for up to six months!
